J. W. GILMAN, Supt. JOHN SINGLETON, Gen. Pass. Agt.

George E. White intimates that he is astonished because he did not kill Senator Noonan outright. Instead of merely cutting and kicking him. Does this political bulldozer expect to keep his Congressional path clear by killing every man that gets in his way? If he thinks he can revive the savage tactics practiced generally by Republican politicians in the Eleventh Ward a few years ago and thereby win a seat in Congress, he is mistaken. The people of the West Side do not desire to be represented at Washington by a thumper.

Hon. R. R. Jampolis, an able lawyer and a gentleman of influence and means, is the strongest man yet mentioned by Democrats for Congress in the Second District. Jampolis can have the nomination if he will accept, and his acceptance means his election by a handsome majority.

Hon. John Meyer has a walkover in the Fifteenth District for the minority nomination to the House. Editor Frank Stanley may be the nominee for State Senator. He is popular in the district.

The Great Herley Warehouse.
The Herley Brothers Commission Company have reopened their great warehouse at 428 to 448 North Halsted street, and have sent out the following circular in connection therewith:

To consumers and dealers of hay, oats, grain, flour, and feed of all kinds:
We wish to call your attention to the fact that if you do not buy your feed at our warehouse you are unaware of the benefits you can derive by so doing.

We handle the best goods only and sell at rock-bottom prices, for the many advantages we have over other wholesale feed men are so great that it enables us to sell first-class goods as cheap as others sell second-class.

Our warehouse is the largest, handiest and most complete hay and grain warehouse in the city of Chicago, covering one acre of ground and situated on the C. & N. W. & St. P. R. R. tracks, where we have our own private track and receive all our goods direct to our warehouse. This is a great advantage, as it saves the expense of hauling, which is quite an item.

We have constructed, in addition to our warehouse, the latest improved grain elevator system, which unloads, elevates and conveys, by machinery, all our grain from cars on our track direct to our elevator, without rehandling. This is a great labor saving, and adds greatly to the value of grain, as all grain passes through our grain elevator, which frees it from all dust and chaff, and leaves it perfectly clean.

There is no waiting outside on the street in cold and wet at our warehouse, as we have provided large "elevators" for teams, and plenty of waiting sheds in our warehouse. All our bins are elevated, so that you can drive under them and put on a load in less than five minutes.

We do a straight wholesale and retail mercantile business, and you will always find us here, from 7 a. m. to 6 p. m., ready to show you our goods and give you prices. We invite you to call and examine our stock, look at our cleaning and conveying machinery and see the way we do business.

Thanking you for your past favors, and hoping we may receive your orders, we remain, yours very respectfully,
HERLEY BROS. COMMISSION CO.

HOW TO SPEND A HOT DAY.
Go to and from Milwaukee on the Goodrich Boat Virginia.

To Milwaukee and return by daylight is a trip arranged by the Goodrich steamer line for the fast steel boat the Virginia. The service, which was begun Tuesday, promises to be highly appreciated on account of the delightful character of the outing and the comfort of the palatial vessel. The boat leaves the dock at the foot of Michigan avenue every morning at 9 o'clock, and on Tuesdays, Thursdays, Saturdays, and Sundays gets back soon after dark. Meals are served aboard the boat.

There is really no cause for surprise that ordinarily milk and all its products, especially cheese, are rich in germs—microbes—for it is a solution rich in all the elements of pabulum that all forms of life are looking for, and why shouldn't microbes like it as well as we? They do, and they generally get their first, and except for a few mean cusses among that tribe who fret our insides, we need not try to sterilize our milk or other foods, for the majority of germs are innocent, harmless, and some indeed predigest or pull apart our food substances, and make them easier for us.
